

Flip Camcorder Video Clip Transfer to Windows 7 Quick Reference Guide

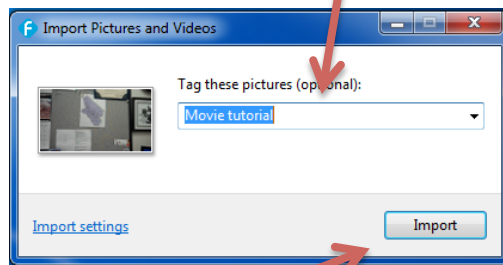

Transfer video clips from Flip cam to computer:

1. Plug in Flip to USB port on computer.
(This may take a few moments – be patient.)

2. Choose “Import Pictures and Videos”

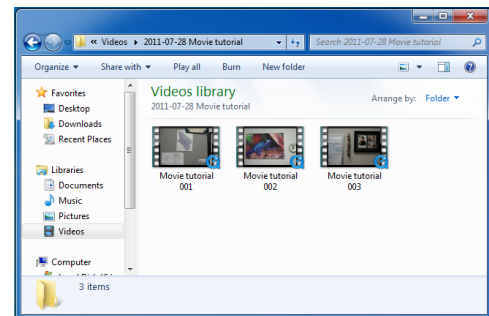

3. Tag your pictures – optional. Use keywords to find your videos, this makes a folder.

4. Click “Import”

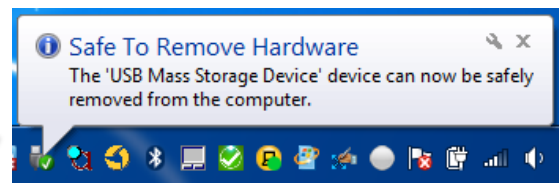

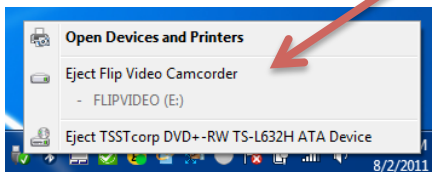

5. Folder with videos opens:
(make a mental note where the files are located)

6. Click the “Safely Remove Hardware” usb icon in system tray.

7. Click “Eject Flip Video Camera”

8. Wait for “Safe to Remove Hardware” then unplug Flip camera.
